WHAT IS THIS PRODUCT?

Type

The Shares are a class of shares in CaixaBank Global Albus Fund, a sub-fund of CaixaBank Global SICAV. The Fund is organised as a public limited company (*société anonyme*) governed by the Luxembourg law of 10 August 1915 concerning commercial companies, as amended (the "**1915 Law**") and is an investment company with variable capital (*société d'investissement à capital variable*). The Fund qualifies as an undertaking for collective investment in transferable securities (UCITS) within the meaning of the Luxembourg law of 17 December 2010 relating to undertakings for collective investment (the "**2010 Law**"). The Fund has appointed CaixaBank Asset Management Luxembourg S.A. as its management company (the "**Management Company**"). The Sub-Fund is a sub-fund of an investment fund, whose performance will depend on the performance of its portfolio as further described in the section "Objectives" of this Key Information Document ("**KID**").

Term

The Fund, the Sub-Fund and the Shares were created for an unlimited duration. The Fund can be dissolved by a resolution of the general meeting of shareholders as further outlined in the articles of incorporation of the Fund (the "**Articles**"). The PRIIP Manufacturer cannot terminate the Fund, Sub-Fund or the Shares unilaterally.

Objectives

The investment objective of the Sub-Fund is to provide investors with medium to long-term capital appreciation by investing in a dynamic and diversified portfolio of assets. The Sub-Fund aims to produce returns by investing in multiple asset classes including money market instruments, equities, bonds and currencies and getting exposure to various assets such as commodities and real estate by investing through UCITS. For equity markets, the main focus will be on European equities and companies with large capitalisations. The Sub-Fund has not a priori limitation about maximum or minimum investment percentage in any asset class and the Sub-Fund could invest close to its total portfolio in equities or fixed income markets. The Sub-Fund may also use derivatives for the purposes of hedging and efficient portfolio management. The Sub-Fund may invest into funded and unfunded total return swaps. Such instruments may be used to gain exposure on a total return basis to any asset that the Sub-Fund is otherwise permitted to gain exposure in strict accordance with its investment policy and objectives. The percentage of the assets of the Sub-Fund that can be subject to total return swaps transactions, measured by reference to the notional amount of such transactions, is expected to be 0% of the net asset value, with a maximum percentage expected not to exceed 40% of the net asset value. Collateral received by the Sub-Fund may consist of cash. The Sub-Fund will not enter into Securities Financing Transactions ("**SFTs**"). Should the Sub-Fund enter into SFTs in the future, the prospectus will be amended accordingly prior to such use. To achieve its investment goals, for treasury purposes and/or in case of unfavorable market conditions, the Sub-Fund may also invest in money market instruments and transferable securities on an ancillary basis. The Sub-Fund may also hold ancillary liquid assets, such as cash in bank deposits at sight

held in current accounts with a bank accessible at any time, for up to 20% of its net assets which may only go beyond the 20% limit in case of exceptionally unfavorable market conditions as further described in the prospectus. The Shares are non-distributing: any income generated by the Sub-Fund is reinvested to grow the value of the Shares. Investors may redeem their Shares in the Sub-Fund on each business day in Luxembourg. Taking into account the medium/long-term holding period and the characteristics of the investments, the performance of the Sub-Fund depends on the performance of the investments over time. A positive performance of the investments will lead to the Sub-Fund's positive performance just as a negative performance of the investments will cause a negative performance. The Sub-Fund pursues an actively-managed investment strategy. The Sub-Fund refers to the following benchmark: BofA Merrill Lynch Euro Large Cap Index for fixed income + MSCI ACWI Net Total Return Index (the "**Benchmark**") for equity. The Benchmark is solely used as a reference to compare the performance of the Sub-Fund. The Sub-Fund's investment objective is not to track the performance of the Benchmark. There are no restrictions on the extent to which the Sub-Fund's portfolio and performance may deviate from the ones of the Benchmark. The investments underlying the Sub-Fund do not take into account the European Union ("**EU**") criteria for environmentally sustainable economic activities¹. The depositary of the Fund is BNP Paribas, Luxembourg Branch. This KID is available in English, Portuguese and Spanish. The latest price for the Shares is available at the registered office of the Fund, 60, avenue J.F. Kennedy, L-1855 Luxembourg. The Fund is an umbrella fund offering several sub-funds whose assets and liabilities are legally segregated between each other. Such document only describes the

Recommended holding period: 5 years

The Sub-Fund is aimed at investors with a high risk tolerance who assume a perspective of capital appreciation in the medium/long term and, as such, are willing to tie up their savings for a recommended holding period of 5 years.

You can redeem your investment at any time during this period, or hold the investment longer. Investors may redeem their shares of the Sub-Fund on any business day in Luxembourg. Cashing in before the recommended holding period may increase the risk of lower investment returns.
