CaixaBank Wealth Nyala Investments Fund – E

a Sub-Fund and Class of CaixaBank Wealth SICAV (ISIN: LU2201937641)

CaixaBank Wealth SICAV is managed by Caixabank Asset Management Luxembourg S.A.

Objectives and investment policy

The investment objective of the Sub-Fund is to provide Shareholders with medium to long-term capital appreciation by investing in a dynamic and diversified portfolio of assets. The Sub-Fund aims to produce returns by investing in multiple asset classes including Money Market Instruments, equities, bonds and currencies.

The sub-fund may invest without limitation in fixed incomes securities. The investment in fixed income securities includes investments in government bonds, credit bonds, emerging market bonds, convertibles bonds, covered bonds. The Sub-fund may invest in, or be exposed to fixed income securities whose rating is not investment grade (below BBB-), ie: high yield bonds. However, investment in these securities will represent up to a maximum of 20% of the Sub-fund's net assets. In the context of a rating downgrade, a corporate action or other conversions (including corporate restructuring events), this limit may be exceeded on a temporary basis. In this case, the Investment Manager will seek to reduce its exposure to those instruments subject to the 20% limit in the best interests of the investors.

Depending on the market conditions, the exposure of the Sub-Fund to equity markets without limitations in respect of market capitalisation or style, may be higher or lower and may go up to 50% of the Net Asset Value of the Sub-Fund. Shareholders will in any case be regularly informed of the composition of the portfolio by monthly reports.

The Sub-Fund can have an indirect exposure to various assets by investing through eligible ETFs, UCITS or other eligible UCIs pursuant to the UCITS Directive. The indirect exposure to commodities and real estate may be up to 15% respectively and will be acquired by investing in eligible ETFs, UCITS or other eligible UCIs. The indirect exposure to real estate may also be acquired by investing in eligible close-ended Real Estate Investment Trusts (REITs). The Sub-Fund may invest more than 10% in eligible ETFs, UCITS or other eligible UCIs pursuant to the UCITS Directive.

Investments in eligible ETFs or other eligible UCIs will be made whenever the Investment Manager considers that there is a gain on efficiency due to one or more, of the following potential considerations:

- to gain exposure to a market, strategy or bias where the investment manager lacks of the required expertise;
- to perform a stock/bond management;
- to manage liquidity in the Sub-Fund;
- to be cost efficient in some specific markets.

The Sub-Fund may invest in developed markets and up to 25% of the Net Asset Value of the Sub-Fund in emerging markets. The equity exposure may be acquired by investing directly in the targeted assets, by investing in eligible UCITS and/or by investing in Derivatives, as described further below.

The Sub-Fund will invest at least 51% of its Net Asset Value in assets denominated in EUR, USD and/or CHF.

The Sub-Fund will have a multi-asset and flexible portfolio that may change its exposure through asset classes and geographical areas depending on market conditions and the opportunities identified by the Investment Manager.

The Sub-Fund may use Derivatives for the purpose of efficient portfolio management, hedging and to implement investment strategies which aim to achieve the Sub-Fund's investment objective.

Collateral received by the Sub-Fund may consist of cash.

The Sub-fund pursues an actively-managed investment strategy.

The Sub-fund refers to the following Benchmark: 25% MSCI AC World + 50% ML EMU Large Cap Investment Grade 1-3 Year Index + 25% ICE BofA €STR Overnight Rate Index (the "Benchmark").

The Benchmark is solely used as a reference to compare the performance of the Sub-Fund, and the Investment Manager does not intend to track it or to limit the Sub-Fund's portfolio to the constituents of the Benchmark. There are no restrictions on the extent to which the Sub-Fund's portfolio and performance may deviate from the ones of the Benchmark.

The Sub-Fund may also hold ancillary cash and bank deposits.

Investors may repurchase their shares in the Sub-Fund on each Business Day in Luxembourg.

The base currency of the Sub-Fund is the EUR.

CaixaBank Wealth Nyala Investments Fund – E shares are non-distributing.

The investments underlying the Sub-Fund do not take into account the EU criteria for environmentally sustainable economic activities which are determined by the Regulation (EU) 2020/852 of the European Parliament and of the Council of 18 June 2020 on the establishment of a framework to facilitate sustainable investment, as amended from time to time.

Recommendation: this Sub-Fund may not be appropriate for investors who plan to withdraw their money within 7 years.

Risk and reward profile

← Typically lower reward ← lower risk			Typically higher reward → higher risk →				
1	2	3	4	5	6	7	

This indicator is based on simulated historical data which may not be a reliable indication of the future risk profile of such Class. The categorisation of the Class in the scale is not guaranteed to remain unchanged and may shift over time. The lowest category does not mean a risk-free investment.

Why this category? The fund is in this category because of the risk that the fund has assumed and as it invests in a range of assets with different levels of risk.

The Class is also subject to:

Credit risk: This is the risk that the issuer of fixed income securities cannot pay the principal or interest.

Liquidity risk: This is the risk that some securities may not be sold at normal price and timely conditions on a market.

Risk of financial derivative instruments: The use of these instruments may cause high volatility of the net asset value of the Class. These instruments may create a leverage effect and may also be dealt over-the-counter (i.e. not through a clearing chamber). Risk hedging by using these instruments may not be perfect.

Charges

One-off charges taken before or after you invest	
Entry charge	5%
Exit charge	0%
This is the maximum that might be taken out of your money before it is invested. The actual amount to be charged can be found to your financial adviser or distributor.	
Charges taken from the fund over each year	
Ongoing charges	1.04%
Charges taken from the fund under certain specific conditions	
Performance fee	None

The entry and exit charges shown are maximum figures. In some case you might pay less. You can find this from your financial advisor.

The ongoing charges figure is based on expenses for the year ending on 31 December 2021. This figure may vary from year to year.

The charges you will pay are used to pay the costs of running the fund, including the costs of marketing and distributing the fund and such charges reduce the potential growth of the investment. More detailed information on charges can be found in section "Expenses, Fees and Costs" of the prospectus of CaixaBank Wealth SICAV.
